

Preliminary results of JT "L.Togookhuu-75"

The Mongolian Chess Academy "KHOS MASTER" organized the International Chess Problems Tourney in 2022 to mark the 75th anniversary of chess composer **L.Togookhuu** on the theme "Removal of white pieces (pawns) from the black king" in orthodox h#3.

A total of 76 problems by 37 composers from 18 countries (Argentina, Azerbaijan, Byelorussia, Brazil, Bosnia & Herzegovina, Croatia, Czechia, Germany, Israel, Italy, Lithuania, Mongolia, Bulgaria, Russia, Slovakia, Slovenia, Sweden, Ukraine) have been entered in the tourney.

Problems were sent in an anonymized form to the tourney judge.

Within 30 days, you can send your comments and questions based on the preliminary award to the judge's email address: vladislav.nefyodov@mail.ru.

The organizers of the anniversary tourney wish all participants great success and are deeply grateful to the International Judge **Vladislav NEFYODOV**.

Tourney participants

Alexander Shakovsky [01], Koci Vladimir [02-03,36], Eugene Fomichev [04-05, 15, 39*], Menachem Witztum [06, 07*-09*, 11*,12], Ricardo de Mattos Vierira [07*-09*], Jambaldoo Lkhagva [10*,16-17, 25], Galsanjamts Tsogniisuren [10*], Emanuel Navon [11*], Vitaly Medentsev [13,14*, 18*,19-20], Anatoly Skripnik [14*, 18*, 32, 39*], Abdurahmanović Fadil [21*], Klasinc Marko [21*], Yuri Bilokin [22-24], Mlynka Karol [26-28], Bizyagin Buyannemekh [29, 33], Javadzade Salman [30-31], Francesco Simoni [34], Ivan Antipin [35], Cherniavskiy Mykola [37], Ovidiu Crăciun [38], Mihaiu Cioflanca [40-41,44], Jorge Kapros [42], Yuri Gorbatenko [43], Cheslav Yakubovsky [45-46], Aleksandr Semenenko [47*,66*], Valery Semenenko [47*,66*], Misha Shapiro [48-55], Aleksandr Feoktistov [56-57], Valery Gurov [58], Mykola Kolesnik [59*-60*,72], Valery Kopyl [59*-60*], Aleksandr Pankratiev [61*-65*, 69-71], Evgeny Gavryliv [61*-65*], Rolf Wiehagen [67, 68*], Christer Jonsson [68*], Viktoras Paliulionis [73], Josip Pernarić [74-76].

REPORT OF THE JUDGE

A few words of introduction...

The anniversary hero is someone I've known for 30 years. Our first meeting took place in Chelyabinsk at the "Ural Tales" festival. While I participated in problem solving a little bit, my main focus was process organization. Consequently, I spent more time on the sports fields and at social gatherings with new friends. Mongolian delegation members were extremely welcoming. Alexei Grigoryevich Kopnin and I shared a room. Due to our similar appearances, the Mongolians thought I was Kopnin's son.

They even stopped by our room to confirm or deny this!

I wish Lkhundevin (our Togoo!) health and happiness.

From my practice, I remembered this problem:

Vladislav NEFYODOV

Shakhmatnaya Kompozitsiya 2003

Spec.Prize

h#3 b) Be8 (4+7) C+

a) 1.Rg3 **Rd8!** (**Rf8?**) 2.Rg4 Rd2 3.Bg3 Ng1#

b) 1.Bg3 **Ba4!** (**Bc6?**) 2.Bh2 Bd1 3.Rg3 Nf4#

There are two ways to reach the black king! Decide routes with removal from the black king!

To begin with, I would like to dedicate the problem to the hero of the anniversary. The theme is completed throughout the all moves (both the black and white figures)! This task has the specifics of transforming on a matting move. It's amazing that the solution came to me in a dream during my awarding process for another anniversary tournament!

Vladislav NEFYODOV original

h#3 b).h2↔e2 (4+9) C+

a)1.e1=R dxc6 2.Ra1 cxb7 3.Ra8 bxa8=Q# (bxa8=B#)

b)1.h1=Q dxe6 2.Qh7 exf7 3.Qg8 fxg8=Q# (fxg8=R#)

Ceriani-Frolkin (Two white transforming pawns are possible, which can result in fewer pieces, although one pawn is always better...)

An overview of most problems...

Several composers simply submitted problems from their archives, in which, on occasion, thematic moves were made away from the black king. It's fine if the content is "worthwhile".

In such cases, judging can be difficult! Do not divide into two sections!

Problems purposefully composed for TT (the desire for record content) and problems that have been deposited or returned from other tourneys. The difficulty of judging is to maintain balance!

A total of 76 problems were sent! of which 12 are miniatures. And if you take into account that one of them in 2 editions, to be chosen by the judge, then the exact coincidence is 75 on the jubilee 75!

OBSERVED DEFICIENCIES

No 04 - brightly pronounced symmetry. The content of one solution is quite normal.

The twin duplicates the first...

No 08 - the idea of a detour is not original. Different solutions, for comparison: **Appendix-1**

No10-originality is perhaps minimal - the march of the black King. But, even adding content - the arrival of black King in the square of white pieces, for example, like this: **Appendix-2,3**

No12 - the same as No.9. The twin is not the best...

No13 - a queen without a game in the second solution. In the first: **R blok + D blok**, In the second: **R blok D?**

No.15-symmetry

No23 anticipation. **Appendix 4-5**

No.26 - symmetry. + ancestor... WC 29907 **Appendix-6**

No.37 - anticipation: **Appendix-7**

No.40 - no theme in twin b)

No41 - no theme

No44 - Bf6 does not participate in the mate...

No45 and No.46 Improvement, apparently problem:... **Appendix:8-9**

No.54 not original: **Appendix:10-13**

No56, 57 for comparison: **Appendix:14-16**

No61 The idea is interesting. The problem is underperforming. -Bf8 C+

No62 ("author" 62 received a discrepancy in the loading of **R** and **B**, splitting **Q**).

anticipation: WC466643 **Appendix:17**

No63 unoriginal, different solutions...

No67 anticipations: **Appendix:18-19**

No68 - a strange twin...

No71 -anticipation: **Appendix-20**

The following distribution of differences is proposed:

Mykola KOLESNIK & Valery KOPYL (Ukraine)

No60 I Prize (75\$)
